

Dear Service Peace Warrior Trainer,

I just wanted to send a message to say Thank You, for all that you have done in Training of my SPW Wesson.

When I meet Wesson for the first time back in February, my heart just sank. My thoughts were racing, asking myself if this was really going to happen for me. I did 30 years in the Army, with two tours over in Iraq. I saw some horrible stuff over there, which has affected my life with the end result of PTSD, depression and anxiety. July 16, 2020, I fell, hit my head on the job which has even made my medical issues more stressful.

I believe that with the love, affection, and the time you spent in the training the puppies must not be easy and it is a lot of repetitiveness in getting them ready for the next stage in their life. This is what made Wesson, the loving, caring and tentative boy, he is today. He is my Hero.

Now with me in training with SPW Wesson, I am finding that its just not Wesson training it's me as well. Learning to open myself into new aspects of my life to know that I am no longer alone. I now have a Hero in my life to help me get through my day-to-day issues. For this I will always be grateful.

Thank you from the bottom of my heart for all that you have done to help us, Veterans and Service Peace Warriors, in providing the kind of support we need in a service animal. Thank you for my Hero, SPW Wesson.

Sincerely

Richard
